*MBE: "By long and arduous hours of close supervision in the 1<sup>st</sup> Battalion Fire Control Centre, Major Andrews has been responsible for ensuring the safety of all artillery and mortar fire supporting friendly troops. His technical knowledge, intelligence and meticulous attention to detail have been responsible for the development of the rapid and accurate procedures used for fire control during which more than fifty thousand rounds of supporting fire have been used. The organisation of his Battery and its standard of training and reliability in action has impressed all ranks in the 1<sup>st</sup> Battalion, and has developed in them a supreme confidence in the employment of close supporting fire. This has contributed largely to success in*

two major defensive battles and ten major enemy contacts. In ten months of continuous operations with 1<sup>st</sup> Battalion, Major Andrews exceptional ability has been evidenced by the quick and accurate response to all requests for fire support. His outstanding technical and artillery tactical ability has been a source of constant inspiration to the Battalion as a whole, and his meticulous attention to the safety of our own troops is indicated by the unblemished safety record of his Battery in action".

National Order of the Republic of SVN 5<sup>th</sup> class. Gallantry Cross (With palm, Gold&Silver). Armed Forces Honour Medal 1<sup>st</sup> Class.

*VC:-"On 23<sup>rd</sup> February 1967 he was acting as an adviser to a Regional Force Company in support of a sector operation in Phu Thu district. He monitored a radio transmission which stated that the subsector adviser, a US Army Officer, had been killed, and that his body was within fifty metres of an enemy machine gun position; further, the US Medical adviser had been wounded and was in immediate danger from the enemy. Major Badcoe with complete disregard for his own safety moved alone across six hundred metres of fire swept ground and reached the wounded adviser, attended to him and ensured his future safety. He then organised a force of one platoon and led them towards the enemy post. His personal leadership, words of encouragement, and actions in the face of hostile enemy fire forced the platoon to successfully assault the enemy position and capture it, where he personally killed the machine gunner directly in front of him. He then picked up the body of the dead officer and ran back to the Command Post over open ground still covered by enemy fire. On 7<sup>th</sup> March 1967, at approximately 0645 hours, the sector reaction company was deployed to Quang Dien subsector to counter an attack by Viet Cong on the Headquarters. Maj Badcoe left the command group after their vehicle broke down and a US Officer was killed; he joined the Company Headquarters and personally led the company in an attack over open terrain to assault and capture a heavily defended enemy position. In the face of certain death and heavy losses his personal courage and leadership turned certain defeat into victory and prevented the enemy from capturing the District Headquarters. On 7<sup>th</sup> April 1967, on an operation in Huong Tra District, Maj Badcoe was with the 1<sup>st</sup> ARVN Division reaction company and some armoured personnel carriers. During the move forward to an objective the company came under heavy small arms fire and withdrew to a cemetery for cover, this left Maj Badcoe and his radio operator about 50 metres in front of the leading elements, under heavy mortar fire. Seeing this withdrawal, Maj Badcoe ran back to them, moved amongst them and by encouragement and example got them forward again. He then set out in front of the company to lead them on; the company stopped again under heavy fire but Maj Badcoe continued on to cover and prepared to throw grenades, when he rose to throw, his radio operator pulled him down as heavy small arms fire was being brought to bear on them; he later got up again to throw a grenade and was hit and killed by a burst of machine gun fire. Soon after, friendly artillery fire was called in and the position was assaulted and captured."*

**OBE:-** "With great enthusiasm, he brought his Regiment to a high state of rediness first tour in Vietnam. For more than 12 months in operations in Vietnam, he commanded his Regiment with distinction, displaying firmness and tact in handling a New Zealand Field Battery and providing fine leadership to inspire his two Australian Batteries. His professional knowledge and friendly disposition enabled him to get maximum effectiveness from the supporting heavy artillery provided by the United States Army. As the fire Support Co-ordinator in 1<sup>st</sup> Australian Task Force, he greatly assisted his commander with sound advice and prompt efficient co-ordination of all the available fire support resources. Throughout his tour of duty, he retained his sense of humour and even under intense pressure was able to exercise calm firm command. His contribution to the Task Force was in the highest traditions of the service."

**OBE:-** On assuming the appointment of Commanding Officer of the 1<sup>st</sup> Field Regiment, RAA in Vietnam in December 1966, Lt-Col Begg also became responsible for the operational control of 161 Field Bty, RNZA, the 1<sup>st</sup> Battalion 93<sup>rd</sup> Artillery US Army (Heavy Artillery) and 'A' Bty 35<sup>th</sup> Artillery US Army (Mdm Bty). By his reorganisation of artillery tactical command post techniques Lt-Col Begg has produced a vital, efficient and quick response by fire power to any immediate demand made for fire support by combat units of the 1<sup>st</sup> ATF. During Operation Portsea in the Phuoc Tuy

Province of Vietnam in March and April 1967, Lt-Col Begg controlled the fire of eleven batteries of guns ranging from eight inch Howitzers to 105mm guns and belonging to four different nations. He had, in addition, to coordinate this fire support with that of a naval destroyer and aircraft. He did this with complete success in a rapidly moving situation over an area of four hundred square miles, relying entirely on arial resupply. As senior artillery officer in Phuoc Tuy Province, Lt-Col Begg has been responsible for ensuring that all aircraft passing thereover are warned of artillery fire from any source. This has proved to be a most demanding and difficult task but one which he has tackled to the satisfaction of all the many agencies involved. Lt-Col Begg is accepted by his United States and Vietnamese colleagues, not only as an expert in the technical artillery field, but as an officer in whom they have complete trust in the field of allied cooperation. This officer has been an inspiration to all who have served with him."

DFC: "He undertook many missions himself and displayed a courageous determination to locate the enemy. On 15<sup>th</sup> May 1969 an enemy force was reported to be in the town of Dat Do but its precise location was not known. Major Benson flew over the town in an attempt to fix their position. He was unable to see them so he commenced making low passes over the area in an attempt to draw enemy fire. He was unable to see them so he commenced making low passes over the area in an attempt to draw enemy fire. He was successful and the enemy positions were disclosed. Although his aircraft was hit by enemy ground fire he continued on and made a safe landing in a friendly compound. Throughout his tour Major Benson continually strove to improve the efficiency of light aircraft support to 1<sup>st</sup> ATF. He developed a new technique for visual reconnaissance missions which greatly enhanced their value and, by personal example, set a high standard of flying. His airmanship, personal courage and devotion to duty were of the highest order.

**MID:** "During its service in South Vietnam, Maj Bertram's Battery was in direct support of 6RAR. He commanded his Battery throughout its tour with skill and determination and displayed the highest standard of professional efficiency and devotion to duty. On many occasions he controlled the fire of his own Battery and that of the United States and other Free World Force Artillery with accuracy, speed and determination which contributed greatly in assisting the infantry in achieving their task. Most of these tasks he carried out as an aerial observer over enemy bunker systems with coolness and disregard for his own safety. His outstanding leadership was reflected in the high standard of maintenance, morale and proficiency of his Battery. His actions were always in the highest traditions of the military service and reflect great credit upon himself, his regiment and the Australian Army".

**MID**:-*"Since the acquisition of sensor devices by the 1<sup>st</sup> ATF, Sgt Brewer has been largely responsible for the installation of the*

unattended ground surveillance sensor program with the tactical area of responsibility of 1<sup>st</sup> ATF. He personally led many of the sensor laying teams and has volunteered for several ambush patrols deployed as a result of information gained from the sensors. In one particular ambush patrol he initiated an action which resulted in the deaths of three enemy. During this action he also acted as an artillery forward observer and adjusted the fire of field and medium artillery onto likely enemy withdrawal routes. By his devotion to duty and professional competence Sgt Brewer has brought great credit upon himself, his regiment and the Australian Army."

*MID:- "Maj Buchan distinguished himself by exceptionally meritorious conduct in the performance of, outstanding service during the period 15 July 1966 to 2 July 1967, while serving as I Corps G3 Training Adviser and Senior Adviser to I Corps Scout Dog and Sentry Dog Platoon. His Distinguished service in these positions was conspicuously marked by outstanding leadership, exceptional efficiency and organisational abilities, and outstanding professional competency in all training matters. Besides the duties mentioned, Maj Buchan was also the senior Australian Adviser in I Corps Tactical Zone, and as such, he was administratively responsible for all Australian military personnel discipline, pay and supply duties. Maj Buchan was also the adviser to the Deputy Senior Adviser, I Corps and Commanding Officer, Company C, 5<sup>th</sup> Special Forces Group on Australian matters. Other additional duties included securing Australian VIP's and making protocol arrangements through all responsible agencies in ICTZ for Australian VIP visits. He performed all of these tasks with outstanding efficiency and diplomacy. In the performance of his duties, Maj Buchan subjected himself to hostile fire many times. The many liaison visits caused him to fly throughout the I Corps Tactical Zone as well as travel by boat and by foot to visit training sites. The unselfish devotion of his time and efforts in making inspection trips and liaison visits gave the training status of I Corps the boost necessary to create more effective ARVN units. Maj Buchan's high degree of professional competency, coupled with outstanding leadership in the conduct and accomplishments of the facts mentioned above is truly noteworthy and deserves the highest praise. His performance throughout his tour was exceptionally meritorious and reflects the highest military qualification upon himself and his country."*
