For three years  
Annie Leavesley  
has been nurse in  
charge of the  
Bournemouth  
Cottage Hospital.  
For medical cases  
I consider her to  
have been the best  
nurse we have ever  
had,

and much liked by  
her patients; my  
colleagues speak in  
the highest terms of her  
skill in surgical  
cases.

I can cordially recommend  
her for employment  
in any hospital or for  
private nursing.
