I have much pleasure in testifying
to Nurse Leavesley's capabilities
as Nurse & Matron in the Cottage
Hospital & Dispensary here, an
Institution which for the past
half year has become more
active under the régime of the
Royal Victoria Hospital Committee
During the whole of the time
Nurse Leavesley has superintended
the nursing of the two institu
tions she has been most
conscientious in the performance
of her duties and I look upon
her as an exceptionally active
and well-trained official.
She has the presence of mind

yet quiet manner so valuable
in a nurse of the sick and
her administrative powers as
Matron have left nothing to
be desired
